Conference and Trade Show

2011 Shoppers Home Health Care Innovations Show

We trust that this year has been a great year for you, from both a personal and professional perspective. The Innovations planning team has been working diligently to ensure that the Innovations Show remains the best in the country. This year we will be showcasing a whole new lineup of great educational sessions, a fun and energetic keynote speaker, great vendors, new products and we'll even find some time to squeeze in a bit of fun.

This year you will have the opportunity to meet with more than 100 vendors. There are 15 educational sessions to choose from and up to 8 poster presentations available. Meeting with the manufacturers and attending the workshop and poster presentations will provide you with an opportunity to hear about new research, innovative products and new clinical guidelines in many areas such as Long Term Care, Rehabilitation, Community and Automotive.

On Tuesday morning be sure to join us for the morning session. Our guest speaker Mike Lipkin is a world renowned motivator and communicator. Mike specializes in helping people enhance their personal productivity and build strong teams around themselves. He will reveal the latest social value trends which shape the way people think and act and will show you how to leverage them to maximize your success.

The Shoppers Home Health Care Innovations Conference and Trade Show is the perfect venue for Health Care Professionals who want to:

- Learn about new developments in products, services and technologies
- Attend a variety of educational workshops that impact your practice
- Have a chance to experience cutting-edge technology first-hand
- Discover and experiment with new seating, mobility and other equipment
- Exchange ideas with colleagues and network with peers

We look forward to seeing you.

Shoppers Home Health Care
2011 Innovations Planning Team

Monday, November 14, 2011

6:30 PM – Midnight **Rock-in-ovations**
Marriott Toronto Airport Hotel
901 Dixon Road, Toronto, ON M9W 1J5

Join us for an evening of food, fun and laughter. The evening's events will include:

6:30 PM – 8:30 PM Dinner
6:30 PM – Midnight DJ & Dancing
6:30 PM – Midnight Cash Bar

Space is limited, so make sure you indicate your participation when you register.

Thank you to Maple Leaf Wheelchair Mfg. for generously supporting **Rock-in-ovations**.

Tuesday, November 15, 2011

Participant Knowledge: Beginner - Intermediate - Advanced - Suitable for all levels

Conference Objectives

Participants at this conference will:

- Attend clinical workshops relevant to their practice area
- Discuss clinical issues with the speakers and other participants
- Discover the latest products available for their clients
- Network with their peers, clinical experts, health care providers and others
- Explore innovative approaches to practice issues

CONCURRENT WORKSHOPS – November 15

To view workshop objectives, please visit www.healthcareinnovations.ca, select **Toronto > Workshops**.

8:00 AM – 9:00 AM **Continental Breakfast and Trade Show**

8:00 AM – 5:00 PM **Trade Show**

This year's Trade Show, with more than 100 exhibiting companies, will highlight home medical supplies and equipment; mobility and seating products; lift positioning transfer solutions; support surfaces; respiratory care; van conversions and many more home health care products.

9:00 AM – 9:15 AM **Welcome and Opening Remarks**

9:15 AM – 10:15 AM **KEYNOTE SPEAKER**

Mike Lipkin

Surprise is the new expected. Uncertainty is the new certainty. Disruption is the new continuity. Everything is up for grabs all the time. But there is a logic to the chaos. The best people grasp the pattern of sustained change transforming their industries. They're boldly going where their competitors are afraid to follow. They're confident, committed and connected. And they're magnetized to the organizations that reflect their vision for themselves.

As the President of Environics/Lipkin, Mike Lipkin literally spends his life in conversation with the Best and the Brightest. In partnership with Environics Research, one of Canada's leading research houses, Mike tracks the trends transforming the way Canadians live, work and play.

10:00 AM – 4:00 PM **Posters on Display**

10:15 AM – 11:30 AM **Refreshments and Trade Show**

10:30 AM – 11:30 AM

Concurrent Workshops

This workshop will be repeated in its entirety at 1:30 PM.

Ethics and Professionalism in a Changing World Beginner

This presentation will define professionalism, ethical behaviour and how these characteristics impact our assistive technology industry. Practical examples of how all team members work together and ensure ethical and professional behaviour will be the focus of the presentation. Hypothetical and real situations will be presented and the challenges of incorporating standards of practice and other guidelines will be discussed.

Brenlee Mogul-Rotman, B.Sc.O.T., ATP, OT Reg (Ont), Occupational Therapist, Toward Independence

This workshop will be repeated in its entirety at 11:45 AM.

Support Surface Selection: A Practice Evaluation Advanced

How do you know if a therapeutic support surface is “right” for an individual client? A practice evaluation was conducted on the Therapeutic Support Surface Algorithm as part of a larger mattress replacement program. Come hear what we learned, and discover how this applies to you and your clients.

Julia Pereira, BA Kin, BHSCT, Occupational Therapist, Louis Brier Home and Hospital

Linda Norton, OT Reg.(ONT), MScCH, National Education, Shoppers Home Health Care

This workshop will be repeated in its entirety at 1:30 PM.

Head Positioning: Problems or Possibilities? Intermediate

Positioning of the head can provide challenges to clinicians developing seating and mobility solutions. It is vital that we attempt to position each client’s head not only for postural alignment and organ function but also for optimal social and environmental interaction. This session will utilize case studies and hands-on equipment selection and adjustment to illustrate common head positioning issues and develop strategies for successful solutions.

Kathryn Fisher, B.Sc.(OT), ATP, Clinical Educator, Seating and Mobility Specialist, Shoppers Home Health Care

This workshop will be repeated in its entirety at 11:45 AM.

How to Get the Results You Need from Your Seating and Mobility Assessment Beginner

This workshop will take the clinician through the thought process of a seating and mobility assessment. The presenters will share valuable strategies and experiences that help them determine the mobility aid and seating system that meets their clients’ needs in every domain of their daily life.

Andree Gauthier, Occupational Therapist, Toronto Rehab

Marlene Holder, Physiotherapist, Holland Bloorview Kids Rehabilitation Hospital

10:45 AM – 11:45 AM

Concurrent Workshops

This workshop will be presented one time only.

License Removal, Driving Assessments and the Process of Reacquisition Intermediate

License revocation is not necessarily age or diagnosis related. OTs need to consider not only the safety of the driver, but the safety of the general public as well. Come explore the issues in driver rehabilitation as driving is the ultimate activity of daily living.

Terry Ginzburg, BA., BSc. (O.T.), OT Reg (Ont.), Clinical Director, DriveAgain

Remo Minichiello, Driving Instructor, CDRS, Owner, DriveAgain

This workshop will be repeated in its entirety at 2:45 PM.

Power Mobility and Seating for the Client with ALS ... The Earlier the Better Advanced

A timely seating and mobility assessment including collaboration with other disciplines is imperative for the client with ALS to ensure the best outcome. Using a review of the literature and case studies, this presentation will identify required key components in power mobility and seating systems for the client with ALS.

Tricia Illman, OT Reg. (Ont.), Occupational Therapist, Adult Wheelchair & Seating Clinic, Hamilton Health Sciences

Wes Greenaway, OTA/PTA, Mobility Consultant, Shoppers Home Health Care

This workshop will be repeated in its entirety at 2:00 PM.

Guidelines for Addressing Elder Abuse/Mistreatment Beginner

Occupational therapists are often in positions to detect and manage situations of elder abuse/mistreatment. This presentation will introduce a national guideline document for occupational therapists that will provide information regarding elder abuse including primary indicators, prevention, assessment, intervention protocols, relevant legislation, regulatory requirements and resources for older adults.

Janet Craik, Occupational Therapist, Director of Professional Practice, Canadian Association of Occupational Therapists

Alison Douglas, Occupational Therapist, CAOT Elder Abuse Project Coordinator, Canadian Association of Occupational Therapists

11:45 AM – 12:45 PM

Concurrent Workshops

This workshop will be repeated in its entirety at 2:45 PM.

Simply Case Studies Advanced

Do contour, shape, size, performance, programming, and/or set-up make a difference when determining functionality as well as comfort and pressure management of a seating and mobility system? What happens when what is available doesn’t work, but you know that there is greater potential? Through the use of unique case studies, this session will review the decision-making process utilized in determining what seating or mobility system will work when “standard off-the-shelf systems” don’t. How do you know if you can change things? How do you know what is available? Can you modify, adapt and create new systems that allow your client to move or sit comfortably and functionally? We will take a look at the clinical presentation of a variety of clients, assessment/simulation data, and trial fittings required to achieve a final result. Utilization of “off-the-shelf” as well as custom configured systems will be explored throughout this session, as well as critical techniques utilized in achieving the desired end result.

Sheila Buck, B.Sc.(OT), Reg. (Ont.), Occupational Therapist, Owner, Therapy NOW!

Also offered at 10:30 AM – see 10:30 AM for a description.

Support Surface Selection: A Practice Evaluation Advanced

Julia Pereira, BA Kin, BHSCT, Occupational Therapist, Louis Brier Home and Hospital

Linda Norton, OT Reg.(ONT), MScCH, National Education, Shoppers Home Health Care

This workshop will be repeated in its entirety at 3:15 PM.

Make it Accessible: Practical Ideas for Home Modifications Beginner

This presentation will focus on home modifications, outlining guidelines and standards as well as tricks and tips used when making accessibility recommendations. Commonly overlooked items that can significantly improve a person’s participation within their home environment and practical examples of how they have ‘made it accessible’ will be discussed.

Lori Massie, BScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit

Tara Forster, BScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit

Nicole DeLong, MScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit

Maura DuLong, BScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit

Also offered at 10:30 AM – see 10:30 AM for a description.

How to Get the Results You Need from Your Seating and Mobility Assessment Beginner

Andree Gauthier, Occupational Therapist, Toronto Rehab

Marlene Holder, Physiotherapist, Holland Bloorview Kids Rehabilitation Hospital

11:45 AM – 2:00 PM

Buffet Luncheon and Trade Show

1:30 PM – 2:30 PM

Concurrent Workshops

Also offered at 10:30 AM – see 10:30 AM for a description.

Head Positioning: Problems or Possibilities? Intermediate

Kathryn Fisher, B.Sc.(OT), ATP, Clinical Educator, Seating and Mobility Specialist, Shoppers Home Health Care

This workshop will be repeated in its entirety at 2:45 PM.

Minimizing Bed Entrapment Risk in Long Term Care Homes Intermediate

As part of the Long Term Care Homes Act, home operators are responsible for addressing bed entrapment risks resulting from unsafe beds, rails and/or mattresses. This presentation will describe a standardized evaluation process, as well as entrapment reduction strategies to maintain resident safety.

Margot McWhirter, OT Reg.(Ont), MA, Clinical Educator, Long Term Care Division, Shoppers Home Health Care

Also offered at 10:30 AM – see 10:30 AM for a description.

Ethics and Professionalism in a Changing World Beginner

Brenlee Mogul-Rotman, B.Sc.O.T., ATP, OT Reg (Ont), Occupational Therapist, Toward Independence

This workshop will be presented one time only.

It’s Much More than “Just” a Wheelchair and a Cushion ... Let’s Find a Way to Influence Wheelchair and Seating Service Excellence Intermediate

Are you interested in promoting the importance of wheelchair and seating services? Do you see a need for a type of standard of practice, or advanced practice in wheelchair and seating services? Come join this discussion exploring changing “It’s just ...” to “It is more than”. The formation of a provincial seating interest group will also be discussed.

Deborah Cox, Occupational Therapist, Adult Wheelchair and Seating Clinic, Hamilton Health Sciences

Linda Norton, OT Reg.(ONT), MScCH, National Education, Shoppers Home Health Care

2:00 PM – 3:00 PM

Concurrent Workshops

This workshop will be presented one time only.

Top Ten Recent Changes in the Field of Driver Rehabilitation Suitable for all levels

There have been several changes in the Driver Rehabilitation industry including advances in methods of screening and evaluating at-risk drivers and advances in assistive technologies for clients with physical impairments. These important changes and their impact will be discussed.

Beth Crystal, BSc OT(c), Occupational Therapist, Saint Elizabeth Health Care – Driver Assessment and Training Services
Shah Baqar, BSc OT(c), Occupational Therapist, Saint Elizabeth Health Care – Driver Assessment and Training Services

This workshop will be repeated in its entirety at 3:15 PM.

We Lift You Up: Safe and Effective Lift Options for the Home Intermediate

New regulations requiring a “zero” or “minimal lift” policy are becoming standard procedures in hospitals and long term care facilities, as well as private home care organizations. No longer is the health care provider required to bear the risk of injury associated with manually lifting, carrying and transferring their patients. This presentation will describe a variety of “no lift” options and situations in a “ceiling lift 101” format. Slings will also be addressed briefly as part of this presentation.

Mandy Dorans, John Bragdon, Deanna Ferguson, Shoppers Home Health Care

Also offered at 10:45 AM – see 10:45 AM for a description.

Guidelines for Addressing Elder Abuse/Mistreatment Beginner

Janet Craik, Occupational Therapist, Director of Professional Practice, Canadian Association of Occupational Therapists
Alison Douglas, Occupational Therapist, CAOT Elder Abuse Project Coordinator, Canadian Association of Occupational Therapists

2:45 PM – 3:45 PM

Concurrent Workshops

Also offered at 11:45 AM – see 11:45 AM for a description.

Simply Case Studies Advanced

Sheila Buck, B.Sc.(OT), Reg. (Ont.), Occupational Therapist, Owner, Therapy NOW!

Also offered at 1:30 PM – see 1:30 PM for a description.

Minimizing Bed Entrapment Risk in Long Term Care Homes Intermediate

Margot McWhirter, OT Reg.(Ont), MA, Clinical Educator, Long Term Care Division, Shoppers Home Health Care

Also offered at 10:45 AM – see 10:45 AM for a description.

Power Mobility and Seating for the Client with ALS ... The Earlier the Better Advanced

Tricia Illman, OT Reg. (Ont.), Occupational Therapist, Adult Wheelchair & Seating Clinic, Hamilton Health Sciences
Wes Greenaway, OTA/PTA, Mobility Consultant, Shoppers Home Health Care

2:30 PM – 5:00 PM

Refreshments and Trade Show

3:15 PM – 4:15 PM

Concurrent Workshops

Also offered at 11:45 AM – see 11:45 AM for a description.

Make it Accessible: Practical Ideas for Home Modifications Beginner

Lori Massie, BScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit
Tara Forster, BScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit
Nicole DeLong, MScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit
Maura DuLong, BScOT, OTReg(NB), Occupational Therapist, Extra-Mural Program – Fredericton Unit

Also offered at 2:00 PM – see 2:00 PM for a description.

We Lift You Up: Safe and Effective Lift Options for the Home Intermediate

Mandy Dorans, John Bragdon, Deanna Ferguson, Shoppers Home Health Care

This workshop will be presented one time only.

Key Topics in Rehabilitation for Persons with Obesity Intermediate

This workshop will target rehabilitation scientists and practitioners interested in exploring evidence and practice for persons with obesity. Participants in this session will spend time in a large group session reviewing and discussing the following topics: environmental assessment; seating and mobility; wound and skin care; and self-care and self-management.

Mary Forhan, PhD, Assistant Clinical Professor, McMaster University
Lili Liu, PhD, Chair of Occupational Therapy Program, University of Alberta
Pam Hung, Occupational Therapist, Alberta Health Services
Nicole Grudinski, Occupational Therapist, Wound Care Specialist, Alberta Health Services
Kathryn Fisher, B.Sc.(OT), ATP, Clinical Educator, Seating and Mobility Specialist, Shoppers Home Health Care

3:15 PM – 4:15 PM

Concurrent Workshops continued

This workshop will be presented one time only.

Assistive Devices Program Update

A series of case studies will be used to illustrate the process for completing successful ADP mobility applications for clients requiring high technology wheelchairs. From prescription to funding applications, this session will help to answer your questions about the Central Equipment Pool for High Technology Wheelchairs.

Ian Lowe, Senior Program Coordinator, Assistive Devices Program, Ministry of Health and Long-Term Care
Linda Norton, OT Reg.(ONT), MSCCh, National Education, CEP Liaison, Shoppers Home Health Care
